PROFILE

Computer Science undergraduate at BINUS University specializing in cybersecurity, with practical experience in penetration testing, digital forensics, and vulnerability assessment. Currently interning at the Ministry of Foreign Affairs of Indonesia as a Data Science Intern and Security Analyst (VA), building data programs and conducting vulnerability assessments. Experienced in fullstack web development and building AI-powered security tools. Combines technical depth with proven leadership, communication, and program coordination skills.

EXPERIENCE

Data Science Intern & Security Analyst (Vulnerability Assessment) | Ministry of Foreign Affairs of Indonesia / KEMLU | Feb 2026 – Present

- Conduct vulnerability assessments on internal systems, identifying security risks and proposing remediation strategies.
- Develop programs and automation scripts to handle and process internal data at MOFA.

Backend Engineer – ECOVATION 2025 Website | Do Well Do Good (DWDG), BINUS | Jun – Aug 2025

- Designed and managed the MySQL database supporting the ECOVATION 2025 competition platform.
- Handled database schema design, query optimization, and backend data integration for the event website.

Team Member & Associate – IT Division, ECOVATION 2025 | Do Well Do Good (DWDG), BINUS | Jun – Aug 2025

- Supported IT operations, troubleshooting, and platform management for the ECOVATION competition.

Head Coordinator – CBDC Competition | BINUS University | Odd Term 2024

- Led planning and delivery of the CBDC competition, managing a student team and overseeing logistics.

Junior Associate | Do Well Do Good (DWDG), BINUS | 2024 – Present

- Assisted program delivery and event coordination for social innovation initiatives including ECOVATION 2025 and Elevate.

Scholarship Awardee – TF SCALE | Temasek Foundation | Mar & Oct 2024

- Collaborated with Singapore Polytechnic and NUS on HPV awareness strategies.
- Designed accessibility tools for Rawinala students with disabilities; awarded Most Voted Solution.
- Mentored freshmen and spoke at International Program events.

Private IELTS Teacher | Jun 2025 – Present

- Teach IELTS preparation to primary and high school students.
- Tailor learning strategies across reading, writing, listening, and speaking.

Master of Ceremonies (MC) | BINUS | 2024

- Hosted CODHES Binus x ITB and BI-Fest CBDC Competition in English before academic audiences.

PROJECTS

LogIQ – Agentic AI Forensic Investigator | *In Development*

- Agentic AI assistant that autonomously ingests Windows Event Logs, reconstructs attack sequences step by step, and generates structured forensic investigation reports grounded in the MITRE ATT&CK framework.
- Built using Azure OpenAI; designed for cybersecurity analysts and digital forensics workflows.

Artha Jewelry Website | *In Development*

- Fullstack e-commerce site for a family jewelry business built with Next.js, TypeScript, and Tailwind CSS.
- Features dynamic product routing by category (bracelets, necklaces, rings), user authentication (login/sign-up), and a component-based architecture with slug-based product pages.

Portfolio Website

- Static personal portfolio built with HTML and CSS, showcasing projects, skills, and professional background.

Website Vulnerability Exchange Simulation

- Built and deployed a website, exchanged with a peer team for penetration testing. Documented found vulnerabilities and implemented fixes to harden the system.

Mobile Application Vulnerability Analysis – Jackal Holidays

- Conducted penetration testing on a simulated mobile app environment with a team to identify weaknesses and propose mitigation strategies.

CTF Challenges (picoCTF)

- Solved 20+ challenges covering web exploitation, cryptography, digital forensics, and general security skills.

TECHNICAL SKILLS

Cybersecurity & IT: Penetration Testing (Kali Linux, Burp Suite, Wireshark), Digital Forensics (FTK Imager), Vulnerability Assessment, Threat Analysis, Network & Server Administration (Docker, Cisco Packet Tracer), DevOps & DevSecOps Fundamentals, Blockchain Basics (Ganache, MetaMask), SQL & Database Security, CTF Write-ups

Programming: C, Java, TypeScript, HTML, CSS, SQL

Web Development: Next.js, Tailwind CSS, MySQL (schema design, query optimization), phpMyAdmin, GitHub

AI & Data: Azure OpenAI, Power BI, Microsoft Office

Other: Graphic Design (Adobe Photoshop, Canva)

EDUCATION

Bachelor of Computer Science | BINUS University, Semarang | *Jul 2023 – Present*

Senior High School | SMA Kristen Tabgha, Batam | *Jul 2020 – Jun 2023*

CERTIFICATIONS & AWARDS

- IELTS Academic – Band 8
- Gold Medal – English Olympiad, Olimpiade Sains & Bahasa (2023)
- Gold Medal – English Olympiad, Pusat Kompetisi & Prestasi Indonesia (2023)
- Certificate of Participation – Temasek Foundation SCALE 1 & SCALE 2 (2024)
- Certificate of Appreciation – Speaker, Study Abroad Sharing Session, BINUS University (2025)

SOFT SKILLS & LANGUAGES

Soft Skills: Leadership, Team Collaboration, Public Speaking, Event Management, Critical Thinking, Troubleshooting

Languages: Indonesian (Native), English (Fluent – IELTS Band 8)
